

Urgent: 60 Thoroughbred Herd Dispersal, Saving from Killer Buyers on November 13th -- Please Donate

Neigh Savers is making a desperate plea for support. There is a large Thoroughbred herd dispersal on November 13th in Banning, California. 60 horses are being auctioned off. After a complicated probate case, the horses have fallen victim to the circumstances of the situation. We have been asked to participate in an effort to save as many horses from killer buyers and ultimately slaughter. We are only bidding against the killer buyers and horses will cost \$200-300. The expenses in maintaining these horses far exceed their purchase price. We still need to cover transportation and then boarding and medical until we get them trained and adopted out. It is our goal to rescue as many as we can be financially responsible for. We will have haulers on hand to ship to both Northern and Southern California.

Our goal is to raise \$5,000 in the next week. Please help us save these horses!

How you can help:
